**Director's Biography:**

After 25 years working in advertising, having worked on over a thousand commercials for both film and television, as well as receiving numerous national and international awards for his ad campaigns, Jorge currently works as a consultant on marketing and advertising projects, as well as developing film projects. *50 or Two Whales Meet at the Beach*, will be his first feature film as both writer and director. *50 or Two whales meet at the beach* won two of the most important awards at 32 CinéLatino Rencontres de Toulouse: Special Award From Cine+ En Construcción and the Award for Films in Progress Toulouse. This film was also selected for the 35th Venice International Film Critic's week.

**Director's Note:**

When people decide to commit suicide, it is not because they want to put an end to their lives, but because they want to put an end to their sadness. *50 (or two whales meet at the beach)* tells the story of Felix and Elisa, two kids who came to life inside my head with an overpowering desire to end their short and sad lives; two young lovers who, surrounded by Good Absent Some and Evil Present Others, play a suicide game that pushes them to live and love with intensity for whatever remains of their

ruined (by others, as always) lives, thru the accomplishment of 50 challenges in 50 days. Some people have said to me that my film is sort of a nihilistic adventure. I could agree to that.
